IT Projects

Avout's project management and delivery teams help organizations identify, implement, and support solutions that streamline operations and build dynamic competitive advantages to respond to the ever-changing marketplace.

IT organizations face increasing pressure to provide sophisticated solutions in tight timeframes with limited resources and budgets. Avout's project teams give you the skills you need to accomplish your business initiatives at a very competitive price.

Avout Is at the Intersection Where On-Premise Meets Cloud

More and more companies are moving to the cloud for better economics and easier scalability, but the fact is that IT organizations will be operating between cloud and traditional on-premise environments for years to come. As Oracle builds out its cloud-based software application and infrastructure offerings, Avout is uniquely positioned to integrate cloud technology with on-premise systems to create a cohesive and efficient environment. In fact, we wrote the book on it. Avout's Chris Ostrowski is the author of *Oracle Fusion Applications Migration*, published by Oracle Press.

Structured to Meet Your Needs

Avout is structured to provide the right skills, at the right time, at the right price. We hand-pick project teams and scale them up or down based on your demand. Each team member is selected from our vast network built over 25 years in the technology space, and we have access to some of the most highly regarded Oracle consultants in the world.

What does this all mean? You get the right team for your project. With Avout, you're not limited to on-staff skills and availability, and our prices are significantly lower since we do not pay for the overhead of maintaining a bench.

Contact sales@avout.com to discuss your upcoming projects.

Avout Gives You the Ability to Deliver

Avout provides the skill sets necessary to help your IT organization meet the growing demands of your business. We pride ourselves on supplying the right skills, at the right time, at the right price via our flexible and scalable business model.

Why Avout?

- **Our Network is Vast.** Avout's leadership has delivered hundreds of millions of dollars of Oracle and other technology services over the past 20 years, and has built relationships that enable us to get qualified resources, fast.

- **We Know Oracle.** Our principals and recruiters have hands-on experience using Oracle software and have run Oracle business units for companies like Oracle, Accenture, and Capgemini. Together we have hired more than 1,000 Oracle experts.

- **We Stay in the Game.** The way we see it, our job is to make you successful. We are always available to our clients and consultants to ensure the lines of communication are open, and you're getting what you need.

- **We Have the Inside Scoop.** We have experience working directly with Oracle and can use our connections and Gold Partner status to get the information you need.

- **Boutique is Better.** We believe smaller, quicker, and flexible is an advantage over large, bureaucratic, and rigid. Our nimbleness allows us to support changes in scope, schedule, and staffing needs.

> *"We deal with over 17,000 hospitals daily, which on the back end is 35+ million people. We can't afford to be gambling. We need someone who has done this before and brings in top-notch experts that don't need to be hand-held. With Avout, you give them the timeline and they simply get it done."* Howard Schweitzer, CIO, VCA ANTECH

> *"When it came time for our Oracle upgrade, there was no question where I would go. Avout really goes to bat for us."* Bill Lewkow, VP of Technology, ScripNet Inc.

Oracle power. When you need it. How you need it.
